

February 2026

#### MESSAGE FROM ERIC

Dear Partners and Colleagues

Happy Year of the Horse,

In Chinese culture, the Horse is associated with movement, vitality and forward momentum. 2026 is a Fire Horse year, association that promotes transformation, innovation and opportunities for growth.

This is who we are in Greenland. We seek opportunities; we drive changes and manage challenges! We do have a number of projects for 2026 that will illustrate it; all with our Customers and Partners first in our mind.

Thanks all for your continuous support and let's have a fabulous 2026

**CHINESE NEW YEAR**

**2026**

**Year of the Horse**

The Fire Horse is synonymous with boundless energy and forward momentum. Our plan to extend our factory in Hong Kong by 8000 square feet embodies this spirit. This expansion is not merely an increase in size, but a strategic shift to meet the evolving needs of our industry, optimizing workflow and housing new technological infrastructure.

The Fire element signifies brilliance, intelligence, and transformation vision. To harness this we are looking at significantly extend the use of AI, in the areas of advanced quality control via computer vision and intelligent supply Chain optimization.

The Horse legendary strength and reliable power will be felt in the reinforcement of our automation. We will invest in next generation robotics systems for material handling, precision assembly, and packaging. This aims to build a backbone of unwavering strength and consistency into our production line, minimizing fatigue in repetitive tasks and ensuring relentless high quality output. This robotic force will work in tandem with human ingenuity, creating a seamless and powerful Value Chain Eco System.

By consciously aligning our plans, we channel the Fire Horse's legendary spirit into a tangible blueprint for success. We are not just preparing for growth; we are igniting a transformation that will define our leadership for years to come.

Thanks all for partnering with us and making it possible.

6/F, Block B, Eldex Industrial Building, 21 Ma Tau Wai Road, Hung Hom, Kowloon, Hong Kong.
